Jeff,

I wanted to express my appreciation for the commitment and difference you, Troy and the entire Stonehenge team have made to our organization. In my 20+ years of being in the PEO space, I've worked with multiple National and Regional agencies that profess to understand the PEO specific intricacies of our industry. After partnering with you and your team over the past several years, it's apparent your background being a PEO operator has provided great insight into the challenges we face and enables you and your team to develop strategic solutions that could not be developed by someone outside our industry.

I noticed your corporate branding emphasizes the importance of industry "Experience" and how your team has gained PEO specific knowledge by working for various carriers, PEO's and supporting PEO's for many years. I can personally attest that no other firm I've worked with comes close to the depth of PEO specific knowledge and experience of your team.

Thank you for your ongoing commitment to our success and supporting the progression of our industry.

Sincerely,

Clinton Burgess  
Chief Executive Officer
